

REPORT ON CELEBRATION OF NATIONAL SCIENCE DAY 2017

Time	:	28 th February, 2017
Venue	:	College Auditorium, GZRSC
Theme	:	<i>'Science and Technology for specially abled persons'</i>
Resource Person	:	Mrs. Lalhmingliani Hlondo, <i>Associate Professor, Dept. of Home Science, GZRSC</i>
No. of Students Participants	:	248
No. of Teacher Participants	:	55

The Celebration of National Science Day 2017 Programme started at 2:00 pm at the College Auditorium GZRSC. The session was chaired by Prof. B. Zoliana, Chairman, Research and Seminar Committee, GZRSC. The Chairman welcomed the participants and after that he mentioned about why India Celebrate 28th February as National Science Day every year and he said that it was the day to mark the discovery of the Raman effect by Indian physicist Sir Chandrashekhara Venkata Raman on 1928. He also gave a brief explanation of Raman Effect.

After that the Chairman invited the Resource person, Mrs. Lalhmingliani Hlondo, Associate Professor, Dept. of Home Science, GZRSC to give a Power point presentation on the topic *'Science and Technology for Specially Abled Persons'*. She start with her presentation that Science and Technology has gone a long way in empowering the disable to overcome their disabilities. Advancement in Assistive technology have helped make their life independent and nearly normal. A range of technology solution are available to support performance, achievement and academic performance. The especially handicapped are categorized according to their disabilities as Orthopedically, Neurologically, Cerebral palsy and Sensory Handicapped. Causes may be due to genetic disorder, accidents, illnesses, diseases etc. Primary prevention include risk people consulting doctors, prenatal care, improvement of nutrition and universal immunization. Management of the disable involve interdisciplinary services such as Physical, Speech and Vocational Therapy, Counseling and guidance, provision of Assistive technology. She also said that Recent technology have improved and helped greater control over their environment, mobility, learning, daily living skill. Making environment friendly and adaptable to public building, hospital, institution etc, mode of transport is necessary for easy accessibility. She concluded her presentation that there are people who fight through their way, make themselves known to the whole world in areas of their abilities, inspite of their disabilities, indeed disability is not inability.

After that we have an interaction between the participants and the resource person. The resource person shared her own experienced (once she had a specially abled child) to the participants.

The Programme ended with a vote of thanks from Prof. B. Zoliana, the chairman of the session. The Research and Seminar committee is thankful to the Principal, GZRSC, all participants, various committee in GZRSC and MISTIC, Department of Science and Technology, Govt of Mizoram for organising and sponsoring the Programme.
