INTRODUCTION

The evolution of technology has dramatically changed society. An endless number of people all over the world use and benefit from modern technology, and the tremendous opportunities it provides play a significant role in almost all fields of human life. Technology has simplified the access to many necessary tools people need in education, industry, medicine, communication, transportation, and so on. Nowadays, every household are having at least one Computer for doing their works or for entertainment. These computer systems have to be properly maintained and repaired every now and then and the cost of repairing may sometimes be very high.

Being in the Computer Science Department, there are not many activities which we can render to the society in terms of technology. One of the most important social initiative programs may be to have a free computer checking program thereby repairing their computers for free otherwise they would have to pay a huge amount of money for repairing at the shop.

The Departmental meeting felt the need of organizing such free computer clinic and the committee assigned Mr. Lalhrulaitluanga and Mr. Laldingliana Sailo as the Organizing Chairman and Organizing Secretary respectively. After much speculations, the organizing team choke out the dates (which is 12th October 2018) and procedures.

The main aim of the Clinic is to inform nearby localities such as Aizawl Venglai, Ramthar and Ramhlun South to bring their computers for repair and repair them for free of cost. Advertisement/information was circulated at each local YMA newspaper. We selected few students from the fifth semester who are capable of repairing computers. Around ten (10) students were assigned for this program.

THE ORGANISING TEAM

As mentioned above the Organizing team consists of the following :

Organizing Chairman: Mr. LALHRUAITLUANGA
Organizing Secretary: Mr. LALDINGLIANA SAILO

Organizing Members:

Ms MS DAWNGLIANI
Mr H.THANGKHANHAU
Mr VANLALLURA
Mr. LALREMTLUANGA
Ms R. LALMAWIPUII
Ms. NGURZAMI

“THE CLINIC”

The program starts at 10:00 am and our first customer was from one of our colleague from Science Department, Mr LB Singh. Other faculties were also making use of this program and brought their laptops and PCs.

The students started working on with the repairing of the computers. Some of the computers are very old and outdated that it took quite a long time to repair them. Due to bad weather, only few localities are able to bring their computer to the college. But we are able to repair all of the computers.

 Govt. Ziriiri Residential Science College

Since this program is supposed to be a social initiative program, we felt that conducting this kind of program was a great success and also found that the people are benefited through this program. We thank the students for their valuable support and also wish that this program will further enhanced them in their studies.
