## REPORTS ON VISIT TO BLIND SCHOOL

**Type of Project** : Visit to Blind School at Kolasib

**Organiser** : Home Science Department

**Place of Activity** : Venglai, Kolasib Town

**Date** : 22<sup>nd</sup> July, 2017

**No of Participants** : 30 students from 3<sup>rd</sup> and 5<sup>th</sup> Semester of Home Science Dept.  
with 1 faculty member Mrs Lalhmingliani Hlondo.

### Summary of Activity:

The aim is to get the student a better perspective of the blind's education and their learning aids.

The participants gathered at the scheduled time at VanapaHall and left Aizawl around 6:45 am. We reached the Blind premises by 11am. As they were well informed of our visits, we were warmly received by the administration incharge of the school Mr Laithanmawia, his wife and staff members. A brief reception was held where blind students were introduced by Father (Hostel warden). The administrator informed us about the establishment and functions of the SZ school. The name of the school formerly known as Blind School was changed to Integrated School and have class upto 8 standard integrating with normal children. The Blind students classes varies from class 3, 8, 10, 11, 12. They were provided 'Reader' to read and write for them. They demonstrate their writing, reading and computer skills which surprises us. We were amazed by their talents in music and academic learning.

Refreshment was served and we were taken around the school and hostel. The school had a large acre of land full of trees and flowers, a very refreshing environment. Our visit was interesting and Informative.

**Any other/Suggestion:** The Blind school is run by Salvation Army, they have to manage with limited funds from church and donations received. Their requirement of chart paper used for writing paper have to be met with limited funds. Occassional financial support to buy chart paper would help them meet their much needed educational requirement.

We sincerely thanks our Principal who made it possible to visit the school and RUSA for Sponsoring the Programme.

(LALHMINGLIANI HLONDO)

Course incharge

Associate Professor, Home Science Dept.
