

## REPORT ON

### NATIONAL WEBINAR ON BIORESOURCES AND CLIMATE CHANGE

Date	:	17 <sup>th</sup> November, 2020
Time	:	2.00pm – 4.00pm
Platform	:	Google meet.
Chairman/Host	:	Lalrinmawia, <i>Associate Professor, Department of Zoology, GZRSC</i>
Resource Persons	:	1. Dr. Lalchhandami Tochwawng <i>Scientific Officer, Mizoram Science Technology and Innovation Council Department of Science &amp; Technology, Govt. Of Mizoram</i>  2. Mr. Lalthanpuia <i>Scientist 'B', State Climate Change Cell, Mizoram Science Technology and Innovation Council Department of Science &amp; Technology, Govt. Of Mizoram</i>
No. of Participants	:	250 (104 faculties, 6 Research Scholars and 140 Students)
Organisers	:	Department of Zoology, GZRSC Department of Electronics, GZRSC Research and Seminar Committee, GZRSC

The Programme was chaired by Mr. Lalrinmawia, Associate Professor, Department of Zoology. He welcomed all the participants to the webinar, and explained the role of webinars, in times of covid-19 pandemic since real time seminars could not be organized. He highlighted the importance of the topic chosen for the webinar and wished every participant to benefit from the webinar.

#### **There were two resource persons:**

**1. Mr. Lalthanpuia, Scientist 'B':** His topic was “**Overview of Climate Change**”. He started by defining Climate change, its effects over a definite period of time. He explained the many cases of the effects of warming of the earth that had taken place with clear examples, and how the climate change and global warming could adversely affect all the living beings in all the parts of the world. He concluded by saying what could be done by all the individual to slow down global warming.

**2. Dr. Lalchhandami Tochwawng, Scientific Officer:** Her topic was “**Utilization of Local Bioresources: Prospects and Potentials**”. She started by explaining the ‘Ecological Hotspots’ of different regions of the earth, how our state Mizoram was included under one of the ecological hotspots. The vast natural resources remain quite unexplored, even though it has many important flora and fauna, many medicinal plants with a potential marketable value. The studies of rich biodiversity of Mizoram could be an interesting research topic for students as well as faculty. The bioproducts that we have now can also be made more profitable by simple value-added marketing skills. She invited the participants/students to do

research more and more on the studies of the flora and fauna of Mizoram, to explore and document what we have in the state.

The webinar chairman thanks all the organizing members, the faculty member and all the students and other participants for their active involvement and collaboration for the success of the webinar.

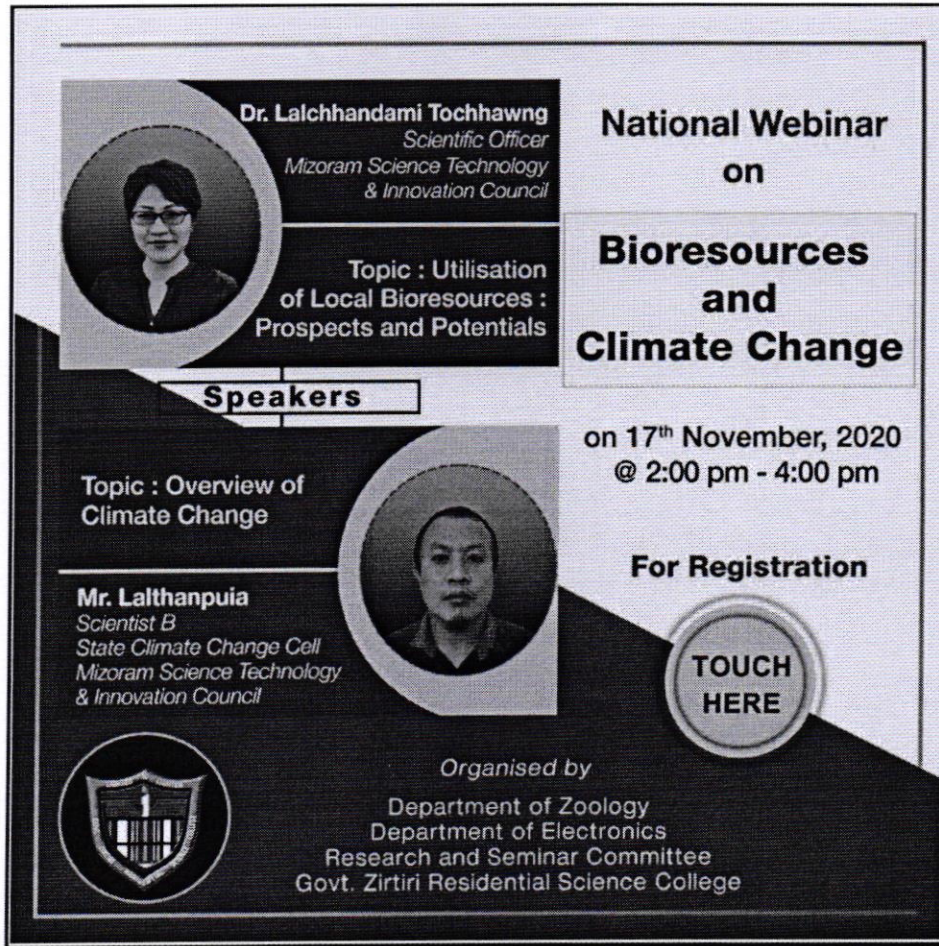

(Dr. RICKY LALHMANGAIHZUALA)

Secretary

**Flyer for National Webinar on Bioresources And Climate Change**

**Dr. Lalchhandami Tochwawng**  
*Scientific Officer*  
*Mizoram Science Technology & Innovation Council*

**National Webinar**  
on  
**Bioresources and Climate Change**

Topic : Utilisation of Local Bioresources : Prospects and Potentials

**Speakers**

Topic : Overview of Climate Change

**Mr. Lalthanpuia**  
*Scientist B*  
*State Climate Change Cell*  
*Mizoram Science Technology & Innovation Council*

on 17<sup>th</sup> November, 2020  
@ 2:00 pm - 4:00 pm

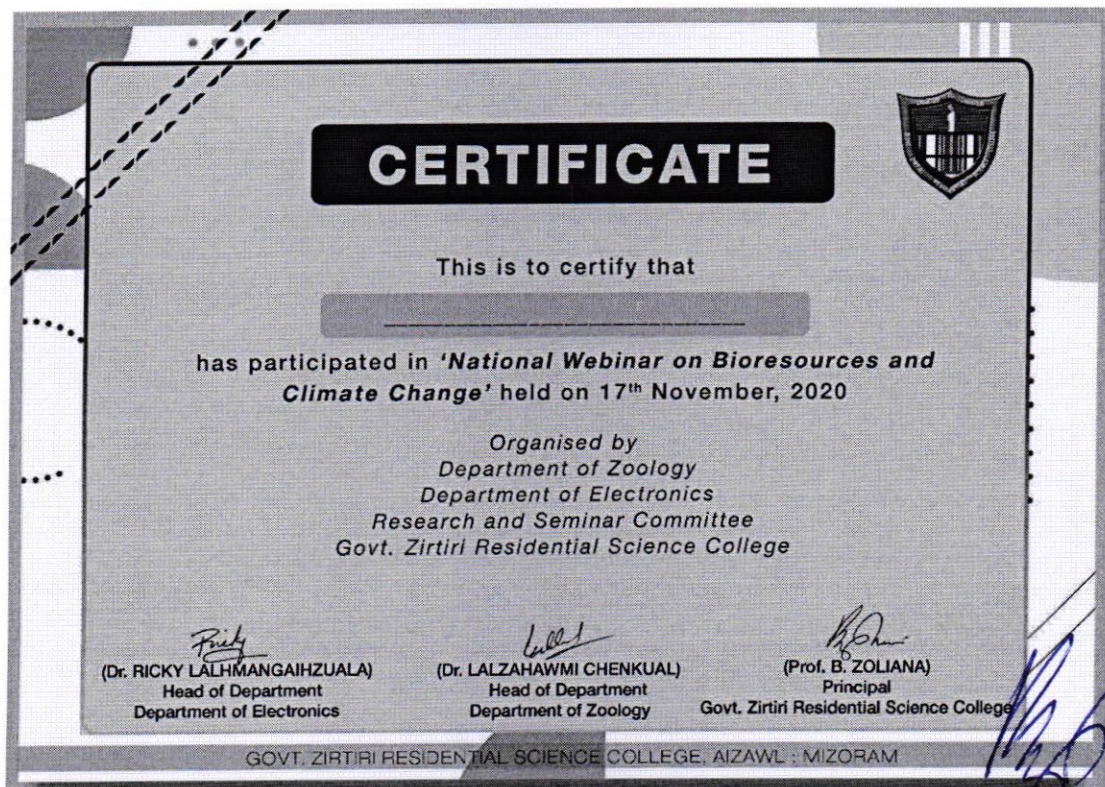

**For Registration**
