Editor's pen...

A warm greeting to all readers of the 15th Annual Magazine 2016-17, Senhri. I give my heartfelt gratitude to the Heavenly Father for his help in publishing the Annual Magazine of this prestigious College. It is indeed a privilege for me to write an Editorial for the first time ever in my life.

Publishing an Annual Magazine is not an easy task. We have faced different problems along the way. But all these have been overcome due to the never ending help and support of my colleague and lecturers so that I am able to publish the Magazine for the College in time. I extend my warm gratitude to everyone who had contributed for the success of this Magazine and I am also thankful to our respected Principal Mr Laltanpuia for his encouragement and support. I would like to extend my heartfelt thanks to Mr Lalhluzuala (Assistant Magazine Editor) for his hard work and unending support throughout the session. Also, my heartfelt thanks goes to my class mates 6th Semester BCA for their kind support to publish this Magazine. I would also like to extend my warm gratitude to our lecturers, in-charge of Magazine, Ms Laltluangkimi Hnamte, Ms Lalmalsawmi, Ms Lalthanpuii Ralte, Sir Thangkhanhau and Sir Lalhmingliana Hnamte for their advice, guidance and hard work. They have helped to successfully bring out this Magazine.

Lastly, but not the least I would like to extend my heartfelt thanks to Mr Lalthawmriliana Bawitlung, Ex-Magazine Editor (2015-16), for his advice and help in the preparation this Magazine. It is my sincere hope and prayer that this issue brings forth with it harmony and integrity. I have tried my level best and I hope it measures up to your expectation. Message

It is a great pleasure to know that the College Students' Union is coming up with yet another version of the College Magazine. This is the right platform for students and faculty members to express their thoughts.

During the academic year, the college has been re-accredited by NAAC with an award of 2.75 CGPA. It is heartening to learn that Ministry of HRD has given a huge sum of money through RUSA. A considerable number of equipments, books and materials have been purchased from the grant. Laboratory Building construction has been completed. The state Government is gracious and the construction of Library building has completed too. Construction of Academic Building Block-I is underway. All in all, it has been a satisfactory development achieved through the concerted efforts of the teachers, students and office staff.

I wish all the readers a pleasant reading.

I am glad to learn that Government Zirtiri Residential Science College, Aizawl is bringing out its Annual Magazine for the year 2016 – 2017.

Today we are living in a highly globalized world where knowledge and skill are paramount and one has to constantly reinvent oneself to have that competitive edge. I urge the students to remember to leave no stone unturned in their studies. I would like to advise students that if one works hard to succeed in life he can be a master of any subject.

Since we are now living in the world of Science & Technology, the students must have an aptitude to acquire technical skills in the various fields of technology. I am sure that the magazine will certainly encourage and inspire students to nurture their imaginative and creative skills.

I extend my warm wishes to the Editorial Board for successful publication of the magazine and to all its readers.

It is indeed a great privilege for me to give a brief report on the activities of NSS Unit, Govt. Zirtiri Residential Science College during the Academic session 2016 – 2017.

With regard to the NSS scenario in Mizoram, this unit is the seventh in seniority and has been allotted six units of volunteers for the session 2016 – 2017. Almost all the volunteers are actively involved in creating assets for the community as well as in generating health and environment protection issues. Some of the most important activities undertaken by this NSS unit may be summarized as follows:

REGULAR ACTIVITIES:

June 2016: As per initiative taken and supervision of SLO NSS (Cell), our NSS unit had successfully observed Green Mizoram Day on 3rd June, 2016 at the NSS Plantation side which is located on the road side of Hmuifang. Zoramthara , PO NSS talked about the history, aims & objectives of NSS. 4 Programme Officers and 190 Volunteers attended the programme. This kind of programme is used to organize every year especially for the newly admitted 1st semester students as many of the Higher Secondary Schools do not introduce NSS in their schools. As such, this Orientation Programme was organized to make the 1st years’ students aware NSS history, aims & objectives.

August 2016: On 12th of this month, a special Swachhta Campaign was organized at College Campus: On this day, cleaning of class rooms, practical rooms, office and corridors were carried out by the volunteers under the supervision of Programme Officers and Cleanliness Committee members. A fact worthy of mention is that not just the NSS volunteers but all the teaching and non-teaching staffs of this college also participated in this cleanliness drive actively.

MZU NSS Cell organized ‘Workshop on Digital India’ at Mizoram University on 24th August, 2016. In this workshop, one Programme Officer and 11 N.S.S volunteers were attended and N.S.S G.Z.R.S.C Unit won second prize for Poster making on the topic ‘Digital India’.

After having done all the necessary arrangements, the voluntary blood donation was started from 10:00Am in full swing. The doctor on duty carefully examined all the NSS volunteers before they donate blood and only those volunteers who were found eligible were allowed to donate blood. A total of 100 volunteers (86 male and 14 female) donated blood on this occasion. The whole day was sacrificed for this event. A number of College staff also participated in this event. Most of the Local Newspapers highlighted this programme on the next day.

October 2016: On 26th Oct., 2016, Swachhta Campaign was conducted at College Campus. This programme includes cleaning of class rooms, office, library and main road from College to Presbyterian Church, Ramhlun South. The NSS volunteers present at the Swachhta campaign thoroughly cleared the target area of waste materials like paper, polythene, sticks, and empty pockets of snacks on the main road. All these were disposed into the garbage dump by hiring a garbage van. This programme lasted for four hours and light refreshment was served to all the participants. Cleaning of College campus was jointly organized by N.S.S unit and College Cleanliness committee.

November 2016: On 14th of this month, the NSS Plantation side which is located on the road side of Hmuifang was visited by 4 Programme Officers: Cleaning and clearing of shrubs, grasses and garbage was carried out at the College N.S.S plantation site.

All these were disposed into the garbage dump by hiring a garbage van. This programme lasted for four hours and light refreshment was served to all the participants. Cleaning of College campus was jointly organized by N.S.S unit and College Cleanliness committee.

'Golden Jubilee Run' was organized by Project Pushpak on 25th Feb., 2017 at A.R ground, Aizawl. One Programme Officer and 32 NSS volunteers participated in this Golden Jubilee run.

March 2017: The NSS Plantation side which is located on the road side of Hmuifang was visited under the supervision of 5 Programme Officers on 14th of this month. NSS volunteers presented on this day had cleaned the Plantation side. Re-fencing was made for each and every sappling. 30 NSS volunteers were involved in this event.

SPECIAL CAMPING:

March 2017: Special Camping was organized under the theme 'Healthy Youth for Healthy India', with the collaboration of the Local leaders and community at Baktawng village, during 2nd – 8th March, 2017 under the supervision of two Programme Officers and 50 NSS volunteers participated in this event. The main activities undertaken were:

- (a) Construction of Public Urinal

REPORT FROM PERSONALITY DEVELOPMENT PROGRAMME

Lalrinsangi
Nghinglova
Co-Ordinator

With financial assistance from RUSA, the outgoing students of our college were once again given a short term course on Personality development for the fourth time. Approximately 82 Students registered themselves for the course which began on the 25th may 2017 and ended on the 1st June 2017. The course which has been included as one of the “best practices “of the college has been organised three times in the past years and it has been designed to equip our final year students with skills necessary for them to face challenges that awaits them as they enter upon a new phase in their lives. The course has been organised by two cell namely “Career Counselling and Placement Cell “and “coaching for Entry into services” A group of enthusiastic students appeared for the first session on 25th May which began with sessions on First Aid skills and Stress management with resource persons from RIPANS. In a world where disaster may strike any moment, It was felt that our students should be taught the basic life saving first Aid skills which was imparted by Mrs zohmingliani Ralte, a Nursing Tutor of RIPANS. The second session was an enlightening activity- based lecture on stress management delivered by a well trained Dr. Lalduhawmi of Ripans.

The second day was devoted to the honing of communicative and interview skills of our students by a very well-known trainer Mrs Rinthanpuii who had been providing her expertise in all the Personality Development courses we have had organised so far. The activity based instuctions gave the students a new approach to learning. The students learnt communication skills through games and activities. The session on interview skills was extremely useful for the students who are to embark upon a journey where they will be facing series of interviews ,either for higher education or for acquiring jobs.

Motivation goes a long way in shaping the future of our students. Hence a session on Motivation and goal setting was imparted to our students from a renowned resource person from Mizoram University, Dr. Lalbiakdiki Hnamte. Alongside the course on Personality Development, our college had introduced a course on basic computer applications for students from the Science

and Home Science stream. The course eventually culminates into giving of an examination under NIELIT which would fetch an additional degree to the successful students, namely CCC (course on computer Concept) besides their Bachelor's degree. The afternoon session was utilised as a preparatory class for the examination on CCC. The actual classes having started from February under the able guidance of Mr. H. Thankhanhau, an Asst. Professor of BCA. Simultaneously, the BCA students, were given a career awareness class by Mr Lalhruaitluanga, a faculty of BCA.

The fourth day began with a lively interactive session "COFFEE WITH KL LIANA" where our students got to interact with a well known Judicial Magistrate whom they idolize. Questions upon questions were asked on legal issues and the session ended with a photo session with the resource person. In a generation where many young people die sudden deaths due to sedentary lifestyles, it was felt that providing a health awareness programme was crucial for the well-being of our students. For the afternoon session, a team of doctors and nutritionists were invited to deliver an awareness programme on Non-Communicable diseases which was followed by a health check-up.

Skills which students require to survive the stressful, competitive world of today were imparted through an enjoyable session on life skills Education by Mrs Vanlalruati, a trainer from SCERT. Students, as well as co-ordinators of the course enjoyed every bit of her lecture. This was followed by an awareness programme on reproductive and sexual health which many students are ignorant of, as the topic is often considered taboo by their parents and elders. The lectures delivered by Mrs Zozikpuii, also from SCERT inculcated in students some basic precautionary measures to be taken by them as they enter their adulthood.

The last day began with a session on manners and etiquette with special emphasis on dining manners and phone etiquette. The demonstrative lecture delivered by Mrs Lalthanpuii an associate professor from Home Science department proved to be very educative and interesting to the students. This session was followed by a very Motivational and Challenging lecture from a well-known TV personnel Mr RK Lianzuala.

Finally the course ended with a special lunch package from KFC which came as a pleasant surprise to the participants who thoroughly enjoyed their meal. Having collected feedback for the course from every student for further improvement on the course, the day ended with a closing function where the Principal delivered a very important speech, followed by a speech from students. Certificates were handed out to every participant and the course ended with a photo-session. Me and my fellow co-ordinators M. S Dawnglaini, Zodinpuii and Dr. R. Lalengmawia are thankful to the Principal for his endless support, the Rusa Co-ordinator Prof B. Zoliana for providing necessary funds and all the students for their active participation throughout the course.

THE LADDER OF SUCCESS

ESSAY 1st Position

Nick Lalrinmawia

1st Sem, B.Sc (Life)

Yellow House

Success is the achievement of an aim. Most people long for success. Throughout history, the ladder of success is becoming harder and harder to climb. However, you can successfully climb the ladder. To climb the ladder of success you will need the knowledge to handle yourself in this world, have a desire, a daily doze of motivation followed by determination.

Before climbing the ladder, you will need to know how to handle yourself in their world, look in the mirror, know your strength, as well as your weakness. Aristotle said, “Knowing yourself in the beginning of all wisdom”.

The first step for climbing the ladder of success is desire. Have desire, a clear desire. Napoleon Hill said that, “The starting point of achievement is desire “Don’t let your desire be shaken by external forces. Feel free to set your desire high, ridiculously high. James Cameron said, “If you set your goals ridiculously high and if it is a failure, you will fail above everyone’s success”. Aim for the moon, even if you fail, you’ll land among the stars!

Sitting all day with your desire will bring no result. Proceed towards the top. “Opportunities don’t happen, your create them”, says Chris Grosser. It is the time you spend getting things done that will move you up the ladder. However, the process can be a slow one. Even the Grand Canyon was created by Colorado River for over a period of

millions years.

Keep up the work. Motivation, the desire to do things. Have motivation, on a daily dose. Sustain your work and stay to have a quick pace. Your sense of urgency will set you apart from everyone else. Keep up your work and keep your motivation with you. Let death be the only obstacle that can stop you - wouldn't it be an honor to die chasing after your dream?

Determination, the tendency to move in a fixed direction; the cessation of a desire. Have determination in your heart. John Green said, "If you want the rainbow, you have to deal with the rain". The path to success is sure to be a rough one. However, keep in mind that obstacles are found only in the right path. Winston Churchill said, "If you're going through hell, keep going", Yes, keep going.

Reaching the top of the ladder is a long drawn process . You can measure your progress by the number of setbacks and failure you've had . Thomas Edison once said, "I have not failed, I've found 10,000 ways that won't work". Failure is required in the ladder of success, to build character. No failure is a sign of no progress. Fail! Then again, don't give up.

Everyone is given a chance to climb the ladder of success; everyone has an opportunity to reach the top. However, not everyone reaches the top. Your position in the ladder is determined by you. Ask yourself "Do I really want to succeed?". Do you want success? Are you willing to work for it?. Or are you happy lying, smiling being at the bottom?. All the decision lies in your hand. It is up to you and only you - to climb the ladder of success.

Choose being kind over being right, and
you ll be right every time.

-Richard Carlson

Knowing others is wisdom, knowing the self is
enlightenment.

**NEW COLLEGE LIFE
EXPERIENCE**

Mukesh Kumar
6th Semester, BCA

Some of us may like to forget our freshman year, but in general it is a time filled with anticipation, some anxiety and wonderful discoveries. College is a lot different than high school. You may decide to commute from your home to a local campus. Your freshman experience will definitely make an impression on you. The first thing you'll notice is the workload. It will be heavier and more intense than you ever experienced before.

The major challenges of college work are the large volume of reading, the short deadlines, and the writing. You'll be making a lot of new friends. Continue to be yourself. Believe it or not, your college friendships will be among the most satisfying and long-term of your life. It's always exciting to discover how wonderful college relationships can be. When you head off to college you will be making lots of changes you might not have experienced yet. Your life changes completely when you head off to college. Instead of having parents around to remind you to do your homework and get a decent amount of sleep, you're suddenly completely on your own, with a lot of freedom and a whole new world of opportunities to embrace. New place, new roommates and new situations. Everything is different when you first get to college.

College isn't just about learning facts and theories from textbooks. A large part of college involves exploring new subjects, finding friends and meeting people from different backgrounds. You might be in a new and strange place, but you're not alone. Strike up a conversation with the person sitting next to you in class or talk to the people who live in your dorms. Don't stress about forming friendships right away, it will probably take some time before you find the right crowd for your personality and interests. In the meantime, enjoy meeting new people and get used to reaching out to others. One way to make college feel more like home is to do some of the activities you enjoy or find clubs that meet your interests. College campuses are filled with student clubs and organizations, club sports teams and

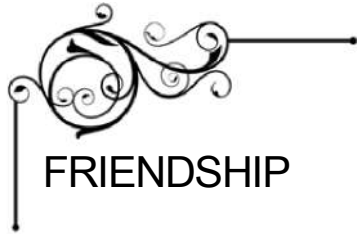

other groups, so chances are good, you'll find one that fits your needs. It is easy to get carried away with all the extra-curricular activities available on campus, but don't forget that you also have to study. Review your syllabus or ask your instructor to find out the deadlines for assignments and exams in each of your courses then use an online, paper, calendar or planner to keep track of those deadlines. Be sure to schedule in time to study, so that you don't wait until the last minute - a practice that doesn't work so well in college. It's easy to get overwhelmed with all the things you need to get done in college, and you can get stressed out if you're doing too much and not leaving any time for yourself. Being overstressed or tired can lead to illness or exhaustion. Make sure you get enough sleep while you're in college, and try to schedule in time to relax or exercise. You may even start to think about your future. Be on the lookout for role models. Maybe a certain professor is especially inspiring. Going to college is as much about finding out who you really are as it is about getting that degree.

Forgiveness is the attribute of the strong.

Friendship is one of the most precious gifts of life. It makes life sweet and gives us pleasant experiences. It is indeed, an asset of life. It can lead us to success or to doom. It all depends on how we choose our friends.

True friendship is a feeling of love, sharing and caring. It is a feeling that someone understands you as you are. It makes you feel “wanted” and that you are “someone” and not a faceless being in the crowd. A true friendship knows no boundaries and stands by you through thick and thin.

According to the great Roman statesman Cicero, “Friendship increases happiness and diminishes misery by doubling our joy and dividing our grief.” We must remember that “All that glitters is not gold”. Lasting friendship is indeed, a blessing. Good friends are like the northern star that leads your way. They are as well the pillars of life.

It doesn’t matter how often you meet your friends, but how much you care and feel for another in good times as well as in bad times.

I understand all these, the value of friends as I entered this college. Because of them, I am able to feel the best of me. As for now, I have to bid farewell to you all. I never wanted to say this, but here comes the time. Saying goodbye to you must be the hardest time in my life, and it is a tough one too. I am glad to have met a person like you. I hope the path ahead is smooth for you and may you reach your goal without a fuss.

Thanks for all those times you helped me in the task I wasn’t able to finish on

time. It will be difficult to fill the void created by your absence. Thank you once again for all the memories, wishes and support. Those are the possession of my life. I now know that bittersweet memories exist. I wish you all the best and wish you a smooth sailing life ahead and a path full of joy. May all your dreams come true... FAREWELL.....!!!!

“Gone with the wind,
Yet so close to my heart.
Maybe we have bid goodbye,
But it is only a new start.”

(Dedicated to all the lovely people I’ve met at GZRSC. Gonna miss you all... Especially my girls- the homescientists 2014-2017 batch.)

THE 1st BENCHER

Mary Lalmalsawmi
2nd Semester Bsc (Life)

A pleasant day, a gloomy day;
We the 1st bencher don't care,
MO, NI and NO

As playful as a monkey,
Jumping, thumping, bumping, laughing,
Same suits, ill-fitting and stinky.

Wildest DONUT be our lunch.
Here came the Zoology teacher,
Shouted and amazed,
MO, NI and NO grazing like a Cow in my class.

Gave us five minutes to food destination,
MO, an elephant stuffed in as a wink.
NI, the sloth choked up,
NO, fast as a toad she blew her mouth.

We the three Idiots,
No man had ever loved,
Find a handsome lad one day.

Her eyes stuck in the Prince pocket.
Magnet with no North and South pole,
That's what we call, 'Chicks magnet'.

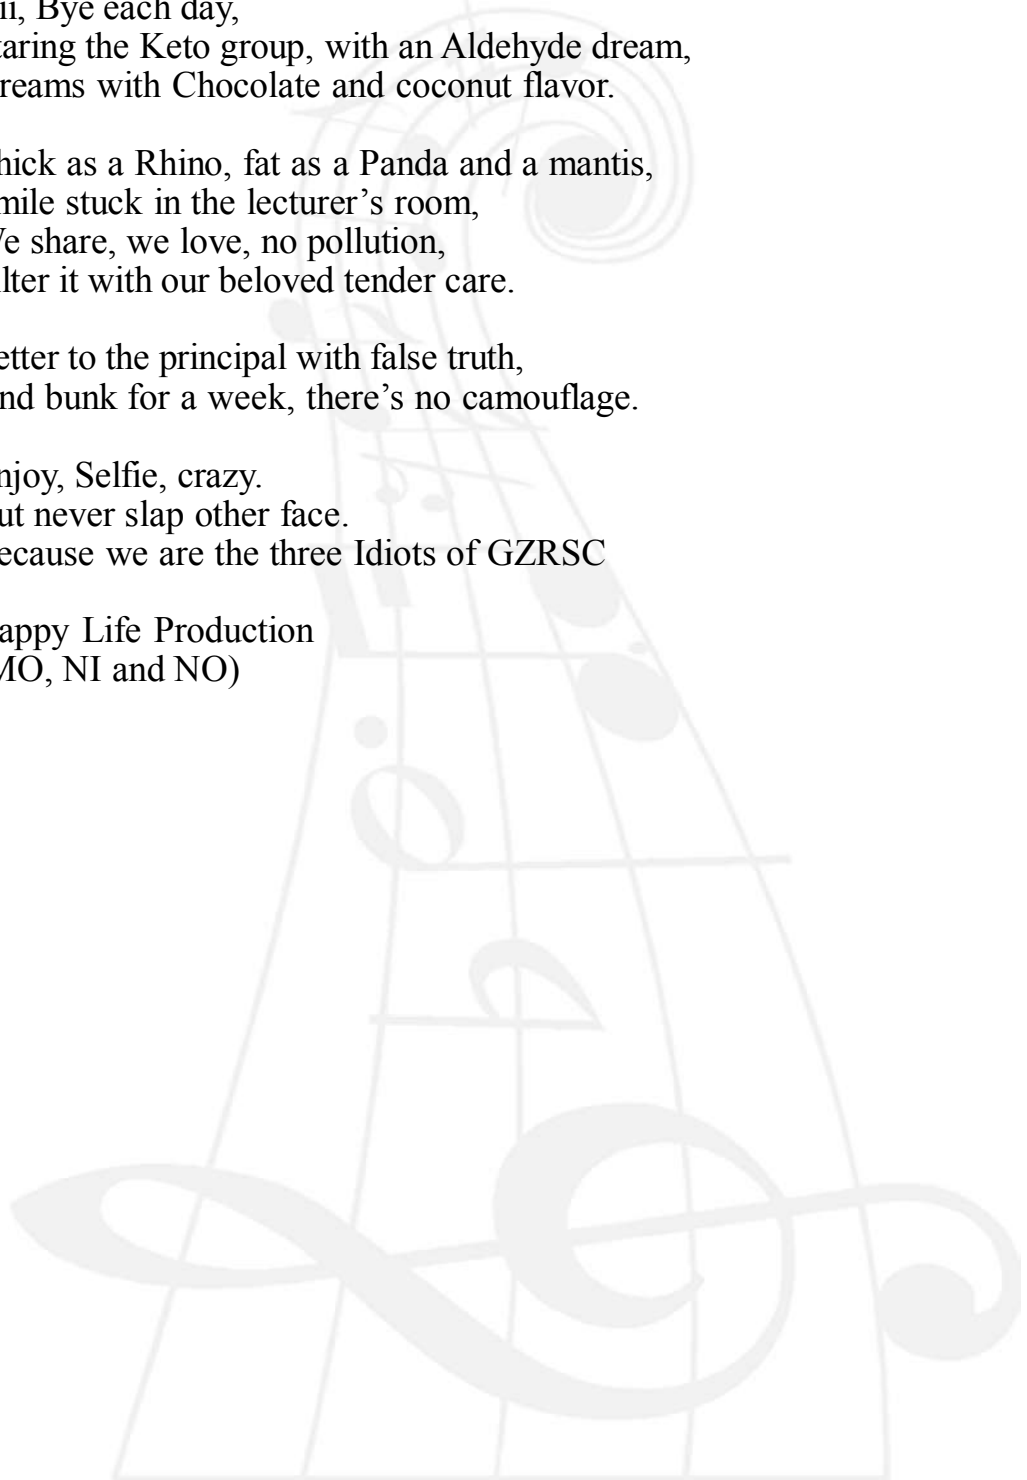

Hii, Bye each day,
Staring the Keto group, with an Aldehyde dream,
Dreams with Chocolate and coconut flavor.

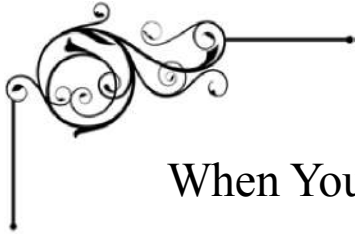

Thick as a Rhino, fat as a Panda and a mantis,
Smile stuck in the lecturer's room,
We share, we love, no pollution,
Filter it with our beloved tender care.

Letter to the principal with false truth,
And bunk for a week, there's no camouflage.

Enjoy, Selfie, crazy.
But never slap other face.
Because we are the three Idiots of GZRSC

Happy Life Production
(MO, NI and NO)

When You're Alone

C.Malsawmsanga
6th semester,
Mathematics

When you're alone,
Don't be scared.
I'll be there,
Make you smile.
Sky will fall,
Stars will dance.
Harmo - ney will,
Flow to you.
They all talk,
About my love.
Love will tell,
You're not alone.
You're my Lil'wolve,
My special girl.

THE LAST RAIN

Tluangtea Colney
6th semester, Physics

When the last of my days come,
Remember me not my deeds
And when my being on earth is done
Let alone my soul in peace

Talk none of my existence
For I am a mere heap of stardust
Among gigantic gallant galaxies
Whose prides are sins and lust?

Conceived with sin in the womb
I am a certain unhinged creation
Tell not tales of my halcyon
For they are my life's lie projection

But if you do call my name
Upon my being's silent departure
Remember me by my humble bask
I enjoy solitarily the fall of the rain

A MOTHER'S LOVE IS TRUE LOVE

Lalrammawia

A mother's love is a wonderful love packaged from heaven with a special care.

A mother's love is like no other love which you can compare.
A mother's love is purified by Angels and flows directly into her soul.

A mother's love is unconditional and from her heart this can be told.

A mother's love is nutritional; it is the fruit that feeds our soul.

A mother's love is eternal, the kind that won't ever die.

A mother's love is true love and she cannot lie.

A mother's love is the tie that binds, and her bond can never be broken.

The dominoes fall out of place
Cracks adorn the sidewalk
The brittle ice does break
When maps don't lead to treasure chest
When maps don't lead to treasure chest
When dreams, they go away
Plans don't always go as planned
All childish dreams will one day
So will this hope of mine.

In to the wilderness of the night
I creep upon the image of your ghost
Those twinkling stars dare to light
A fraud beauty of brutal roast
Whence all upon whom you count on
Blessed you with agony and betrayal
What is it to living? What is it to life?
When the only one who is ever close
Is the monster beneath your bed!!
