INTRODUCTION

Computers and its uses grew rapidly and widely through out the world. They are used to deal with many tasks due to their various potential. It helps to resolve problems human life encounters in daily life. Therefore, they have more influence on our life. Within the last 3 decades, computer has been recognized as the most life changing and successful invention solving problems in human life.

Today, where business caters, there you find them applying computer usage. Look at educational sector, health, transportation, or communication sector, we can see the influence and application of computer. It's difficult to survive a business without adopting computer usage either directly or indirectly in this modern world. Nowadays, every household are having at least one Computer for doing their works or for entertainment. These computer systems have to be properly maintained and repaired every now and then and the cost of repairing may sometimes be very high.

Being in the Computer Science Department, there are not many activities which we can render to the society in terms of technology. One of the most important social initiative programs may be to have a **free computer checking program** thereby repairing their computers for free otherwise they would have to pay a huge amount of money for repairing at the shop.

The Departmental meeting felt the need of organizing such free computer clinic and the committee assigned Mr. Laldingliana Sailo and Mr. H Thangkhanhau as the Organizing Chairman and Organizing Secretary respectively. The meeting decided to conduct this programme on the 24th of October 2019.

The main aim of this Clinic is to inform nearby localities such as Aizawl Venglai, Ramthar and Ramhlun South, Electric Veng etc to bring their computers for repair and repair them for free of cost.

Advertisement/information was circulated at each local YMA newspaper and also through Whatsapp. We selected few students from the fifth semester who are capable of repairing computers. Around five (5) students were assigned for this program

THE ORGANISING TEAM

As mentioned above the Organizing team consists of the following :

Organizing Chairman:	Mr. LALDINGLIANA SAILO
Organizing Secretary:	Mr. H. THANGKHANHAU
Organizing Members:	Mr. DAVID LALRAMNGHAKA Ms. LALTHLANHLUI

Registration starts at 10:00 am, as already mentioned in the introductory part, the main aim of this free clinic is for the neighbouring localities but maybe due the dissemination of information through whatsapp, many people enquire from different places such as Durtlang, Chawlhmun etc and even another Districts of Mizoram.

It was beyond our expectations that more than 84(eighty four) computer systems(Laptop and Desktop) were registered for repair on this day.and even UPS and keyboards came in for repair.

We are very delighted at the performance of our fifth semester students who try their best to support and work hard for this clinic and even though only five (5) students were appointed, sixteen (16) students volunteer themselves for the clinic. We work from 10:00 am till 5:30 in the evening trying to repair as many as possible.

Some of the computers are very old and outdated that it took quite a long time to repair them. Due to limited time constrain, there are still unfinished works in the evening .

Even though the clinic was proposed to be held for only one day, we have to continue on the next day due to unfinished works from the previous day. We started again at 10:00 am and try to finished the whole workload at the earliest. The students also did their best. At around 4:00 pm we can barely finished the whole workload and we call it a day.

Few photos of the Free Clinic Program:

CONCLUSION

Since this program is supposed to be a social initiative program, we felt that conducting this kind of program was a great success and also found that the people are benefited through this program. We thank the students for their valuable support and also wish that this program will further enhanced them in their studies.
