Suggestion / Comment

20 responses

The students will benefit more if sufficient study materials/ text books are available.

Syllabus is needed to reframe

The course is satisfactory.

Timely revision of syllabus will improve the standard as well as learning.

Practical mark is very high in CBCS. In College, due to lack of practical instruments and apparatus, it is difficult to achieve and teach which worths 100 marks. If possible I suggest to decrease practical marks from 100 to 50.

Syllabus for science is good enough . BCA needs to be updated

A little change in the syllabus of Vector is needed.

The syllabus is overall good, at the same time i believe a few modifications are required

Everything is alright.

Need more apparatus for doing more practicals

More Indian Reference books may be add

In paper 23a- Bioinformatics, we do not have sufficient equipments for practicals. We sometimes need to go to MZU or sometimes we use BCA laboratories. I hope this matter can be settled soon.

Timely revision of syllabus is recommended

Satisfied

The syllabus in Botany subject need to be revise

All ok

Syllabus is quite good but needs to revise very often

The syllabus is quite sufficient.

More recommended books are needed

Syllabus needs to be updated time to time
