# ANALYSIS OF STUDENTS' FEEDBACK 2021-2022
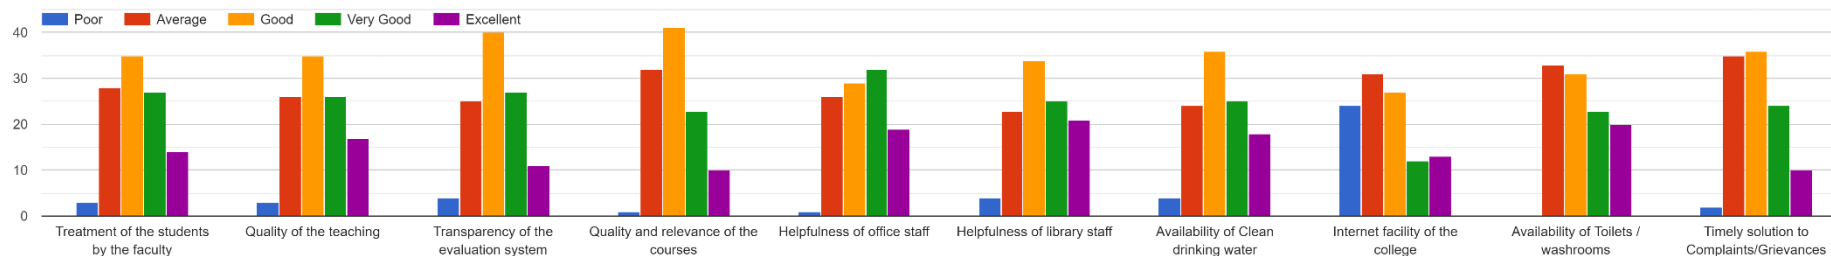

1. Feedback on the Curriculum

A. FEEDBACK ON THE CURRICULUM

2. Feedback on Faculty and Institute

B. FEEDBACK ON FACULTY AND INSTITUTE

Legend: Poor (blue), Average (red), Good (orange), Very Good (green), Excellent (purple)

Categories: Treatment of the students by the faculty; Quality of the teaching; Transparency of the evaluation system; Quality and relevance of the courses; Helpfulness of office staff; Helpfulness of library staff; Availability of Clean drinking water; Internet facility of the college; Availability of Toilets / washrooms; Timely solution to Complaints/Grievances

3. Suggestions for improvement (if any)

➢ Update Textbook/Course relevant to Present Technology,

➢ We need a canteen who do not waste all our lunch time for waiting and gives us 5mins to complete all our lunches.

➢ we need more bus, transportation is a big issue

➢ Improve the Internet

➢ Too many activities for contributing Money which could possibly sponsored by the institute itself. Student don't attend University for condolence

➢ If there are more study materials, it would be more helpful for student.

➢ The quality and quantity of our college GZRSC for my rating in average is very good. As wise people say in college level 80% depend on student and 20% on teacher.

➢ Fan is required in every Biochemistry class

➢ Availability of more parking lots for students and expansion of college canteen

➢ Planting more trees and flowers near the surroundings

➢ internet connection should be more stable and teaching of students by faculty should be taken seriously

➢ If teachers can share their pdf after they finish class day or night. It should be very effective for students. Not only posting only when the test or exam was near
