# ANALYSIS OF STUDENTS' FEEDBACK 2022-2023
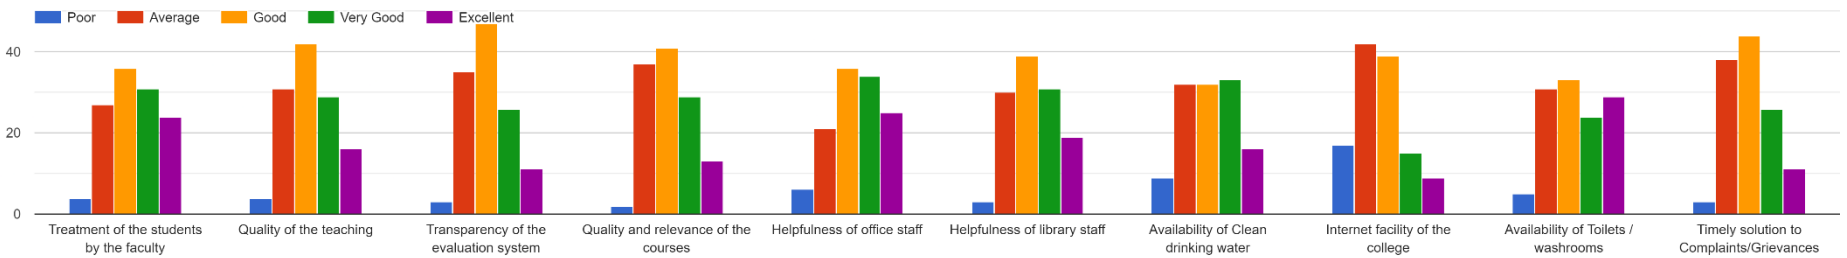

1. Feedback on the Curriculum

A. FEEDBACK ON THE CURRICULUM

2. Feedback on Faculty and Institute

B. FEEDBACK ON FACULTY AND INSTITUTE

3. Suggestions for improvement (if any)
- For the course, getting straight to the point we are supposed to learn is better than rather than going in a complicated way to learn it
- It must be nice if any Information or notice is early announced or informed to the student so that we can be prepared beforehand
- More Activity less study
- I would kindly like to suggest (especially) for the final year Mentors to have a small meeting with their Mentee at least once every month about their carrier or any other topics.
- College bus: very poor;
- Hope we be able to upgrade soon.
- More activities
- The teaching staff and change some time table so it wouldn't be boring
- don't have much, the teaching and environment is good enough
- More club activities, more improvement of teaching to cover syllabus and for teachers to be stricter during CAT and final semester exam
- MORE SEAT ON THE COMPOUND FOR OUR FREE TIME/CLASS
- Ramthar campus is outdated
- 1.As many as Carrier guidance books can be put in library is required
- 2.as much as possible of student presentation must be done for good quality of teaching
