II. Activity Summary:

The Department of Chemistry, Govt. Zirtiri Residential Science College, organized an Industrial Visit to the Industrial Growth Centre, Luangmual on 14th February 2026. The visit was arranged to provide students with practical exposure to industrial processes and applications of chemistry in real-world settings.

During the visit, students observed various industrial operations, machinery, and production techniques. They gained firsthand knowledge about manufacturing processes, safety measures, quality control, and the role of chemistry in industrial development. The interaction with industry personnel helped students understand how theoretical concepts learned in the classroom are applied in actual industries.

The visit was highly informative and educational, enhancing students' practical understanding and encouraging them to explore career opportunities in industrial and applied chemistry.
