

Visit to Gilead Special School , Bawngkawn

Date: 5th February 2025

Semester: IV Home Science Student

No. Participants: 18

No Faculty : 1

The IV Semester Home Science students had the opportunity to visit Gilead Special School to extend voluntary services. The students assisted the Deaf and Dumb sections, who were engaged in making envelopes as part of their vocational training. Our students helped in cutting papers and assembling the envelopes, which were part of a large order received from a local church. The visit was meaningful and enriching. We purchased a few aprons made by the students for personal use, in support of their efforts. The experience provided valuable insights and left a lasting impression on all participants.
