

Visit to Cyber Crime office report

A visit to Cyber Crime office was held on 7th Aug 2025 by 5th semester BCA. The Cyber Crime officers shared their recent cases such as fraud transportation Selling bank account can cause various troubles where fraud usage can lead to our fault and get arrested on their behalf including sharing of fake news and unauthorised videos.

Online investment is the most common case recently Online loans, financial fraud, online, relationships where unauthorised goods transport can get us arrested any type of scam or deception that takes place over the internet, where someone tries to steal our money, data, or identity.

Common Questions:

1. Handling of viral sex video blackmailing cases:

Their first priority is to recover the money they lost after freezing the frauds back accounts they do not exactly try to arrest them.

2. Online investment fraud cause: This scheme is all about people the more they increase the more investment fraud increases.

3. Online job fraud: Careful job selection where bank transfer can lead to financial fraud

4. How to report various cyber crimes:

Cybercrime. gov.in where financial crime is reported and **1930**

Officer: 6909316531

emergency: 8837443506 (cyber SP)

Tafcop.Sanchasathi.com: report if number does not belong to us but under our name we can report on the website itself

CEIR website for blocking the services for lost phone

Adarsh Singhal and associates Fb Grievance officer help centre account hack report

Various crime all over India like char sheet, fir etc are stored in CCTNS data base where all the police stations have access to it where they stored it online but due to connectivity issues in Mizoram these are done offline which is synced at SDC (State Data Center) using program which is again synced to National Data Center all these information's from about 45 police station are sent to the office

Mizoram faces various connectivity and login issues for the process and hence the Mizoram Govt. got InfySEC – Cybersecurity Experts from Chennai who solve the issues and give the following reports based on it

List of Equipment (Software/Hardware) Available at Cyber Forensic Lab

S/N	ITEM	QTY
1	PASSWARE KIT FORENSIC	1
2	FORENSIC TOOLKIT WITH CEREBUS	1
3	X1 SOCIAL DISCOVERY	1
4	ULTRAKIT 4.1 WITH TD2U	1
5	FORENSIC EXPLORER	1
6	MOBILEEDIT FORENSIC EXPRESS WITH CONNECTION KIT	1
7	MAGNET AXIOM COMPLETE	1
8	UFED 4PC WITH UFED CHINEX UFED CLOUD ANALYZER	1
9	C5 CDR ANALYZER	1
10	Forensic Recovery of Evidence Device Server (FRED SR)	1
11	MICRO FRED	1
12	FRED – L	1
13	ENCASE FORENSIC TOOL	1

FRED SR Forensic System

SKU: F3150

Description

Contents

The FRED SR combines the processing power of an Intel® Xeon® W Processor with the fault tolerance and huge storage capacity of three, five-drive RAID chassis (fifteen total RAID drives). The FRED SR operating system resides on a fast 1 TB NVMe M.2 solid state drive. Seven additional drive locations (2 PCIe connected, 2 SATA connected, 3 USB 3.2 connected) allow FRED SR to be configured for optimal performance when acquiring or analyzing data.

FRED SR includes a number of exclusive system components such as the Digital Intelligence UltraBay 4d Write Blocker and the Digital Intelligence Ventilated Imaging Shelf.

FRED SR has all the functional capabilities of a FRED system with the addition of components optimized for the absolute highest level of processor, memory, and I/O performance.

New FRED purchases include the one-day "Digital Forensics with FRED" (DFF) class held at Digital Intelligence headquarters in New Berlin Wisconsin.

All FRED systems include a standard 36 month warranty and lifetime technical support.

Dimensions: 23 1/2" High(25 1/2" w/wheels), 16 1/4" Wide, 28" Deep
Weight: 150 lbs

Equipment's seen in the Cyber Forensic Lab
